

## What is Rotary International ?

Rotary was founded by Paul Harris and two of his friends in Chicago, IL, in 1905 with the aim of servicing their communities and fostering understanding and goodwill among nations. Meeting each week at a different members place of business, the name Rotary was chosen, and membership grew to 30 members in the first year. The second club was formed three years later in San Francisco, and by 1910 there were 16 clubs with more than 1,500 members in the continental United States. By 2002 there were more than 29,000 clubs in 175 countries, with a total membership of more than 1,400,000. With more than 65% of the clubs located outside of the United States, Rotary International is one of the world's largest community and international service organizations. Rotary International's motto is "Service Above Self."

### The 4 Way Test...

Rotarians worldwide live their lives by applying the following to their thoughts, words and deeds...
